14. Estimated time required to complete the application of water to beneficial use 3 years
15. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

The Truckee River Decree does not specifically define the location of the existing Point of Diversion, describing it as "On or above lands" through the "Timothy Field Ditch (and others)" which allows the diversion of water from various points along Galena Creek above the irrigated acreage. This application limits all future diversion of a portion of Claim 648 to the Timothy Field Ditch, thus changing the Decreed Point of Diversion to a single point.
